Technical Information: Beeswax, yellow

Chemical name :	Beeswax, yellow
Einecs-No. :	232-383-7
CAS-No. :	8012-89-3
General informations :	Beeswax is a natural wax obtained by melting the emptied honeycomb bodies of honeybees with hot water.
Application :	A distinction is made between yellow wax and bleached wax. Beeswax is used in cosmetics, as a separating and coating agent, and as a pharmaceutical excipient. As a coating agent, it protects the ingredients, prevents them from sticking together, and gives the products a beautiful shine.

Hazard Informations : Beeswax is not subject to labeling requirements according to the Hazardous Substances Ordinance and EC directives. Always read the label and product information before use.
