Technical Information: Filling granules into buckets.

Chemical name :	Filling granules into buckets.
	Contract filling of granules into buckets or other containers
filling from :	Big Bags, sacks, drums
filling to :	Plastic buckets, also available with UN approval for hazardous substances or other containers on request
Packing :	drums
Notes :	On request, we can also provide labels and source the containers

Synonym :	Abfüllung, Lohnabfüllung, Kommissionierung, Verpackungsänderung
General informations :	We fill granules for you on a contract basis from big bags, sacks, or drums according to your specifications into pails ranging from 500 grams to 10 kg. Of course, we comply with the specified net weights. In addition, we offer labeling and order picking, including palletizing.
Application :	Filling is carried out manually or semi-automatically. Labels may be supplied by you or produced by us according to your specifications. Billing is based on quantity, unit of measure, or as agreed.
Hazard Informations :	Before filling, we require a safety data sheet for the products to be filled. If such an SDS is not available, a dangerous goods officer can assist you in preparing the safety data sheets. We would be happy to provide you with a contact for this.
