Technical Information: Filling tubes with fats

Chemical name :	Filling tubes with fats
	Contract filling of fats and waxes into tubes
filling from :	Buckets, drums, production containers
filling to :	Tubes and other small containers
Packing :	drums
Notes :	On request, we can also provide labels and source the containers
Synonym :	Abfüllung, Lohnabfüllung, Kommissionierung, Verpackungsänderung

- General informations :** We contract-fill fats, waxes, and other highly viscous products from buckets, drums, or other containers into tubes or similar small packaging units according to your specifications. Depending on the product, we can also produce a premix of various raw materials for you. Of course, we comply with specified net weights. In addition, we offer labeling and order picking, including repackaging and palletizing. We can also store the filled products for you and then, on a per-order basis, ship them directly to your customers in your name.
- Application :** Filling is carried out manually or via our filling plant. Labels can be supplied by you or produced by us according to your specifications. Billing is based on piece count, unit quantity, or as agreed.
- Hazard Informations :** Before filling, we require a safety data sheet for the products to be filled. If such an SDS is not available, a dangerous goods officer can assist you in preparing the safety data sheets. We would be happy to provide you with a contact person for this.
