Technical Information: NPK Fertilizer FOL Spray

Chemical name :	NPK Fertilizer FOL Spray
	High-quality water-soluble NPK fertilizers for foliar application
assay :	Nitrogen, phosphorus, and potassium in varying concentrations
other :	Depending on the requirements, the appropriate product is selected from the NPK fertilizer line
CAS-No. :	Gemisch
Synonym :	NPK Dünger, Sprühdünger, Beregnungsdünger, Dünger für Gewächshäuser

- General informations :** NPK Fertilizer FOL Spray is quickly and completely soluble in water and can then be sprayed or applied by irrigation.
Thanks to its low pH value, rapid uptake into the leaves is achieved, making the results visible fairly quickly.
Potassium from the best source on the market
Significant content of trace elements
Suitable for all crops, all soil types, all phenological stages
All products are manufactured in EU.
- Application :** The products from the NPK Fertilizer FOL range are used with different nutrient contents depending on the specific requirements of the situation.
You can also view our individual products in the range. We will be happy to advise you on your specific application.
- Hazard Informations :** NPK Fertilizer FOL Spray is not a hazardous substance. However, we recommend observing the general safety instructions for handling fertilizers and keeping the product out of the reach of children.
