Technical Information: SPC Air401 Pneumatic Fluid, Biodegradable

Chemical name :	SPC Air401 Pneumatic Fluid, Biodegradable synthetic lubricant
biodegradability :	biodegradable, oil-free, easy to wash off
Areas of Application :	Compressed Air Fluid for Air Tools
Einecs-No. :	Gemisch
CAS-No. :	Gemisch
Synonym :	Pneumatikflüssigkeit Slidesave, Pneumatiklösung Slidesave, Druckluftflüssigkeit für Druckluftwerkzeuge, Bio Kompressorflüssigkeit, Druckluftwerkzeugflüssigkeit Pneumasave

General informations :

SPC Air401 pneumatic fluid is a mineral-oil-free, biodegradable solution specially developed for use in compressed air systems. With its clear, colorless appearance, it offers excellent compatibility with water-soluble metalworking fluids, enabling versatile use across various industries. Its flame-retardant properties and outstanding oxidation resistance increase the safety and longevity of machinery. Its very good anti-stick-slip properties minimize friction and wear, while excellent corrosion protection extends the service life of components. SPC Air401 ensures clean machines without deposits and improves adhesion, significantly increasing efficiency and reliability in use. In addition, we offer the possibility of providing this and similar products as a contract manufacturer in customer-specific containers or as a white-label solution for our customers.

Advantages:

- Environmentally friendly and biodegradable
- Mineral-oil-free for increased safety and compatibility
- Flame-retardant for enhanced operational safety
- Excellent corrosion protection extends machine service life
- Very good anti-stick-slip properties reduce wear
- Free of hazardous labeling, making handling and storage easier
- Compatible with water-soluble metalworking fluids

Application :

SPC Air401 is introduced directly into the compressed air system. The recommended dosage should be based on the specific requirements of the respective system. It is important to monitor the machines regularly and top up the fluid as needed to ensure optimal performance and longevity.

Hazard Informations :

Always read the label and product information before use. Always store SPC Air401 in a dark, cool, and dry place, and keep the packaging tightly closed. Although the product is biotechnologically produced and based on purely plant-derived active ingredients, we still recommend observing general precautions and keeping the product out of reach of children.
