Technical Information: SPC Chelate Fertilizer: Zinc and Manganese

Chemical name : SPC Chelate Fertilizer: Zinc and Manganese

Trace-element fertilizer for spray applications

assay : Bor (B) 3,00%, Eisenchelate (Fe) 4,55%

other : Zinc (Zn) chelate: 4,50%, Mangan(Mn) chelate: 2,00%

CAS-No. : Gemisch

General informations : SPC chelated fertilizer zinc manganese is quickly and completely soluble in water and can then be sprayed or applied by irrigation. Due to the low pH value, rapid uptake into the leaves is achieved, making results visible quite quickly. Significant content of trace elements
Suitable for all crops, all soil types, all phenological stages

Application : SPC chelated fertilizer zinc manganese is dissolved in water and then sprayed onto the plants in a suitable manner.

Hazard Informations : SPC chelated fertilizer zinc manganese is not a hazardous substance. However, we recommend observing the general safety instructions for handling fertilizers and keeping the product out of the reach of children.
