Technical Information: SPC Drilling and Cutting Oil Aerosol Spray

Chemical name :	SPC Drilling and Cutting Oil Aerosol Spray Special high-performance lubricating oil for machining processes
Packing :	Aerosol: aerosol cans, custom containers; Liquid: spray bottles, canisters, IBCs
Synonym :	Schneidöl, Bohröl, Hochleistungsschmierstoff

General informations :

SPC Drilling and Cutting Oil Aerosol is a special high-performance lubricating oil without aggressive additives.

SPC Drilling and Cutting Oil activates the machining process and reduces production scrap by extending the service life of cutting tools. Suitable for all machining processes with high lubricant requirements, such as thread cutting or drilling.

SPC Drilling and Cutting Oil offers high heat resistance and good adhesion, preventing surface damage.

SPC Drilling and Cutting Oil is biodegradable and does not contain harmful chemicals such as chlorine or sulfur.

We also offer this product as contract manufacturing in customer-specific containers or as white label for resellers.

Application :

Advantages:

- Extends the service life of cutting tools
- High heat resistance
- Highly efficient and economical in use
- Environmentally friendly due to the absence of harmful additives
- Biodegradable

Shake the aerosol can well before use. Simply spray directly onto the tool. When working with copper and copper alloys, the material should be cleaned after processing.

Hazard Informations :

SPC drilling and cutting oil aerosol is labeled in accordance with the CLP Regulation. Signal word: Danger. Contains white mineral oil and hydrocarbons (C10-C12). Extremely flammable aerosol; container is pressurized: may burst if heated.

Please always read the label and product information before use. Store the product in a cool, dry place away from sources of ignition.

We recommend observing general precautions and keeping the product out of reach of children.
