Technical Information: SPC High-Pressure Grease Eco

Chemical name :	SPC High-Pressure Grease Eco
	High-Pressure Grease for Axles and Bearings in Agriculture and Industry
advantage :	biodegradable, oil-free, easy to wash off
advantage :	non hazardous
Synonym :	Schmierfett für Landwirtschaft, Hochdruckschmierfett, Fett für Achsen und Lager

General informations :

SPC High-Pressure Grease Eco is a versatile high-pressure lubricating grease specially developed for the requirements of agriculture. SPC High-Pressure Grease Eco provides excellent protection for axles and bearings and ensures easy inventory management thanks to its wide range of applications.

SPC High-Pressure Grease Eco is water-repellent and free from silicone, acid, and resin.

We offer the option of filling this lubricant into various containers as a white-label product for resellers, according to customer requirements, in order to meet individual needs.

Application :

SPC High-Pressure Grease Eco is used for the lubrication of axles and bearings in agricultural machinery. SPC High-Pressure Grease Eco offers the advantage of high load-carrying capacity and excellent corrosion protection. Customers benefit from simplified inventory management, as a single grease is sufficient for most lubrication points. Our customers can specify packaging size requirements to maximize their operational efficiency.

Hazard Informations :

Since SPC Hochdruckfett Öko is not dangerous goods under ADR and does not require GHS labeling, no special safety measures are necessary when handling it. Nevertheless, we always ensure that all our products are safely packaged and stored in order to guarantee the highest safety standards.
